The Hot Seat

Relax, Sit Back and Warm Up with our Modular Component Seat Heater System.
Carbon and thermal fiber heating elements provide evenly distributed instant heat.
Advanced electronic controls keep the temperature constant within one degree, even when no one is sitting down!

- The most versatile seat heater solution available!
- Install multiple, mixed or single pads
- Carbon fiber pads can be pierced for listings
- Split pads are ideal for vertical listings
- Bolster pads add more heat and work with OCS
- Harness extension options for switches & pads
- 3 Year/36,000 mile Limited Warranty
