

# Luxury Pop-Up Sunroofs

**SKYROOF®** Gen.Z Pop-Up Sunroofs vent in infinite positions, and can be removed completely. A low profile composite frame, flush finish, curved leading edge, tight radius corners, and dark tinted glass make SKYROOF® sunroofs look built-in, not bolted on. A flexible trim bezel is standard for a perfect finish on any interior, even without a headliner. Compact 17x31 size makes it the perfect fit for today's vehicles. Get premium luxury features and OEM styling at an affordable price. Available only from DONMAR Sunroofs & Accessories.

An easy to use rotary latch provides positive locking closed and infinite open positions. It also includes a release tab to remove the glass completely.

**SKYROOF®** Gen.Z Pop-Up Sunroofs feature a convenient flexible trim bezel for a neatly trimmed interior. This makes quick work of contoured hard headliners. When used in fiberglass or composite roof panels such as removable tops, camper shells, RV's, trailers, boats and box or panel trucks, the flexible trim bezel provides a neatly trimmed interior in any vehicle, even without a headliner.

**SKYROOF® Gen.Z Pop-Up Sunroofs** provide convenient operation, practical features, and quality construction for a great value. *Get yours installed today to enjoy the great pleasures of open-air driving with a sunroof from DONMAR.*

**SKYROOF®** Gen.Z Pop-Up Sunroofs are backed by a limited 3 year, 36,000 mile warranty through our nationwide dealer network.
